

10th to 16th May

## Dying Matters Week Workshops for everyone

### **There's more to end of life planning than putting a Will in place**

Whilst many people know that putting a will in place is something that we should all ideally do, not so many people think about other aspects of end of life planning. This includes considering and recording wishes about aspects such as whether to spend last days at home or in a formal healthcare setting.

### **This year's Dying Matters campaign is focused on being in a "good place to die"**

Where people die is changing. More people than ever are dying at home, and the pandemic has accelerated this trend. 28% of people in the UK died at home in 2020. There are advantages of being in hospital and there are advantages of being at home. Either way, it is a personal choice; it is also one which should ideally be informed and discussed with loved ones.

### **How far you have organised yourself for the future? We can help!**

Book for one or both of our FREE online workshops during Dying Matters Week. They will inform you about what you need to consider, help you to plan ahead and make sure that you and your loved ones are aware of each other's end of life wishes.

#### **Wills & Lasting Powers of Attorney: Tuesday 11 May. Time: 14:00 – 15:30hrs**

For further workshop information and to register click here: [Wills & LPAs](#)

#### **Advance Care Planning: Thursday 13 May. Time: 14:00 – 15:15hrs**

For further workshop information and to register click here: [Advance Care Planning](#)
