

Your Copse Location

Thank you so much for supporting the u3a 40th Anniversary Woodland. We are delighted that with your support, over 8,000 trees have been planted.

We hope to plant 10,000 trees by the end of the year as the u3a Woodland remains open for anyone to keep contributing to the environment and wildlife.

The continuing success of this campaign shows that the u3a movement feels strongly about addressing climate change and contributing positively to the environment and wildlife.

We are now pleased to send you the location of your copse, through the What3Words app.

What3Words is a website and an app for your phone. You type your three words into the box (below), hit search and the website will identify the exact location of your copse, which you can then navigate towards using the Maps app. If you have any questions about how to use What3Words - get in touch.

Your three words are *///another.smuggled.rests*

Sign up to the Newsletter for regular updates on the woodland and interesting news and events from across the movement.

Please do encourage your u3a colleagues to contribute to the Woodland and thank you again for your enthusiasm and support.
